

Drillcube Capability Statement

The Drillcube Guarantee

Dig Deeper with Confidence.

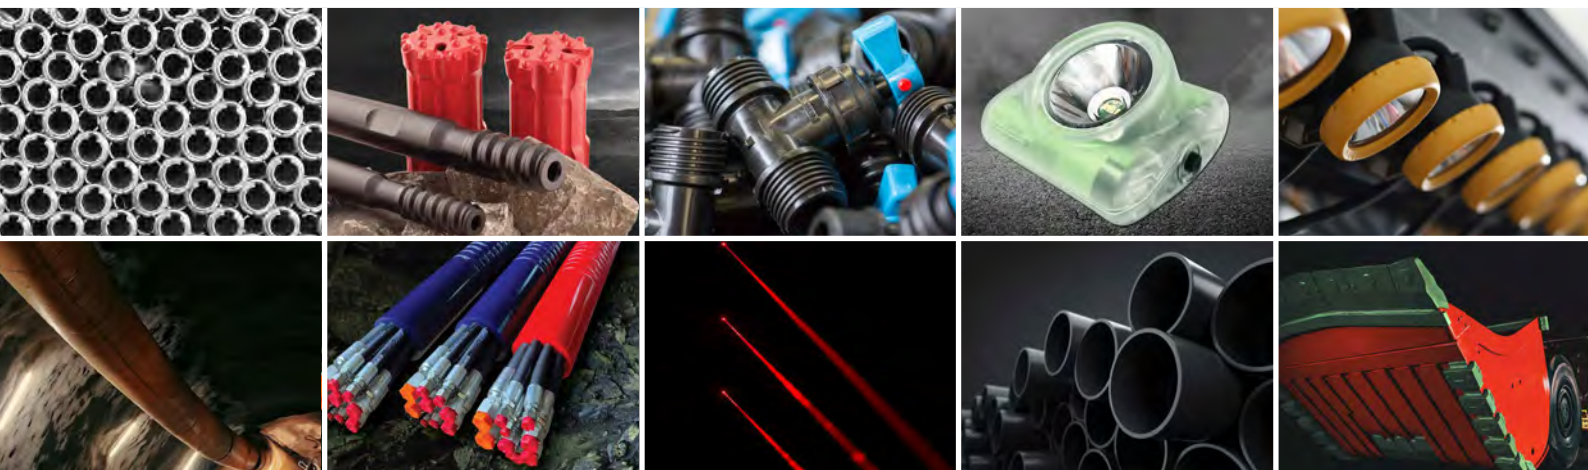

Trust in quality with Australian Certified Products.

All DrillCube products are certified to Australian Standards, tried and tested, and manufactured by suppliers we trust.

A specialised product portfolio enables us to provide a one-stop-shop for underground operations globally.

Australian Standard

Drillcube Overview

One Supplier.

One Picking Slip.

One Invoice.

Your underground mining services, streamlined.

Drillcube is an innovative Australian-owned company setting a new benchmark in the global underground mining industry.

Our Executive Team has more than 100 years of experience in underground mining; leading by example, with a strong track-record of transparency and ethical practice across the supply chain.

As mining's 'one-stop-shop (in a box)', we're able to streamline our client's mining operations — delivering all their equipment, tools and consumables in one convenient monthly order, at highly competitive prices.

The flow-on benefits to the mining operation include supply-chain constraints (due to lags or

delays) being prevented, production forecasts are no longer at risk, inventory management is reduced, all-in costs are lowered, and overall profitability / NPV of the asset is increased.

All Drillcube products are certified to Australian Standards, tried and tested, and manufactured by suppliers we trust. A specialised product portfolio enables us to provide a one-stop-shop for underground operations globally.

Drillcube respects and honours Aboriginal and Torres Strait Islander Elders past, present and future. We are committed to building a brighter future together.

Underground Mining's One-Stop-Shop (In A Box)

Drillcube has a specialised product and services portfolio that enables us to provide a one-stop-shop for underground operations globally.

What we do

A specialised product portfolio allows us to provide a 'one-stop-shop' for underground operations globally.

The Challenge

A growing population and rise in energy consumption has already led to an increase in mining production and associated costs. As a result, many mine managers and support staff are faced with more paperwork, purchasing decisions, and cost pressures.

The Solution

We deliver premium QA/QC products to your site, shorten supply times, streamline invoicing and delivery and hold consignment to lower your inventory levels. Our aim is to improve your cost per metre through competitively priced, quality products.

Premium Products

- ✓ Rock tools and drilling consumables
- ✓ Laser systems
- ✓ Mining cap lamps and vehicle lighting
- ✓ A full suite of geotechnical ground support products.
- ✓ High-performance ventilation ducting (SuperVENT)
- ✓ HDPE poly-products and certified fittings
- ✓ A range of engineered products for underground mining.

Our Clients

Drillcube's products and solutions are deployed globally:

- Kainantu Gold Mine (K92 Mining)
- Porgera Joint Venture
- T-Boli Gold Mine
- Olympic Dam & Leinster
- Prominent Hill & Carrapateena Mine (OZ Minerals)
- Telfer/Caldia Operations (Newcrest Mining Ltd)
- Tomingley Gold Operations (Alkane Resources)
- Kibali Operations (Barrick Gold)
- Eagle Mine (Lundin Mining)
- Lubambe Copper Gold
- Burkina Faso (AUMS)
- Nova Bollinger & Rosemont Gold (Barmenco)
- Kitwe, Zambia
- Plutonic Gold Mine
- Carosue Dam, Carrapateena, Deep South, Gwalia, Hamlet, Havieron, Invincible Gold & Telfer (ByrneCut)
- Sunrise Dam, W.A.
- St Ives Gold Mine (Gold Fields)
- Accra, Ghana
- Syama Gold Mine (Resolute Mining Ltd)
- DeGrussa Copper-Gold Mine (Sandfire Resources)
- AngloGold, Ashanti, Brazil

We have a global presence

We can distribute worldwide into developing and established jurisdictions.

Capabilities

Drillcube leads the change as an integrated Mining Service Group that supplies high-quality, underground mining equipment and services to local and international markets at competitive prices.

- ✓ Drillcube optimises operational cost reductions with durable and reliable consumables.
- ✓ We establish strong ties with all major mine sites and partners globally as their preferred supplier.
- ✓ Our operations team has vast experience in the underground mining industry across Tier 1 mines and jurisdictions.
- ✓ We collaborate with reliable QA/QC suppliers that introduce innovative products to the market.

Our mission is to ensure our clients' mining operations meet their productivity forecast and remain profitable.

Providing a one-stop-shop (in a box) for all their mining equipment, tools and consumables - delivered on site, on time and on budget.

Why Drillcube

At Drillcube, we take a targeted approach to underground mining.

Our executive team has a wealth of industry experience and we pride ourselves on delivering cost-effective products, streamlined services and improving efficiencies across the mining supply chain.

Our Point of Difference

- ✓ A full suite of mining consumables through one single-source supplier.
- ✓ One account, one invoice, one purchase order – seamless supply chain logistics that save you time and money.
- ✓ Consignment or direct purchase stock held onsite by us – never run low on gear again.
- ✓ Premium QA/QC, third-party tested stock at industry-low prices.
- ✓ Managed by industry-leading professional account managers and subject matter experts who can capably support your business needs and growth trajectory.
- ✓ Production Orientated: Stock held onsite, zero lead time, sharpening, pull testing and site support 24/7. Yearly geotechnical and operational review - free of charge.
- ✓ Commitment to co-developing the Western Australian mining industry, its people and communities.

Our Core Values

Integrity | Teamwork | Perfection | Delivery
